

# A YOUTH-LED TALK SHOW

HIGH-LEVEL POLITICAL FORUM  
ON SUSTAINABLE DEVELOPMENT

**Climate change and human rights:**

**Youth-led initiative to request an ICJ Advisory Opinion**

Climate Change affects Human Rights, yet the obligations of governments to address and solve this problem remain unclear. As such, authoritative clarification of the impacts of Climate Change on the Human Rights framework and the rights of future generations is required.

To clarify this question, a Youth-led initiative asks for an Advisory Opinion of the International Court of Justice (ICJ). Let's discuss together in our talkshow the potential of international law to increase climate ambition, climate justice and intergenerational equity!

**With interventions from:**

**Mary Robinson**

Former UN High Commissioner for Human Rights

**Daniil Ukhorsky & Aditi Shetye**

From WYCJ

**Prof. Hajer Gueldich**
